Nature of Complaint:

As a home owner in Parker Lakeview Estates, I realize the importance of having a viable water company. This is a remote area and there is no electricity available, which make operating and maintaining a water company more expensive and more difficult. When the system was installed, there was no governmental oversight and the main water lines were installed in shallow ditches in the roadway. The lines are starting to come to the surface and must be reburied. Without the increase, I would have serious concerns about the continued viability of the water company. A home without water is worthless.

I would urge you to approve this increase as requested, and help assure the viability of this water company.

Thank you for your consideration
